Lounge access by tier status

If you are a top-tier member of one of our frequent flyer programmes, you will have access to our lounges prior to departure.

- Emerald status gives you access (with one guest) to all First Class and Business Class/Frequent Flyer lounges, regardless of the class you are travelling in.
- Sapphire status gives you access (with one guest) to all Business Class/Frequent Flyer lounges regardless of the class you are travelling in.

Lounge access by class of travel

Customers flying First or Business Class have access to the equivalent class of lounge regardless of their frequent flyer status. (First Class passengers may be accompanied by one guest travelling on a **oneworld** sold/operated flight). Customers flying in Economy class on the domestic or intra-European segment to connect to or from a **oneworld** longhaul First or Business Class flight can also use the lounge applicable to the class in which they are travelling the longhaul segment.

Access is available on the day of departure when your next onward flight is with a **oneworld** member airline. Access may be restricted at a limited number of third-party-operated lounges or due to capacity constraints. Arrivals Lounges are not part of the **oneworld** lounge policy. American Airlines and Qantas offer programmes enabling a customer to pay to gain access to their lounges. These programmes are not part of the **oneworld** agreement, and members of these programmes are not entitled to access lounges under the **oneworld** agreement.

Note:

All **oneworld** benefits are only available to passengers on scheduled flights that are both operated and marketed by a **oneworld** member airline. (Marketed means there must be a **oneworld** member airline flight number on the ticket.).
