EASTERN PROVINCIAL AIRWAYS

Growing with Atlantic Canada.

The early history of Eastern Provincial Airways (1963) Limited is actually the story of two separate companies until 1963. In 1941 Maritime Central Airways was launched in Moncton, N.B. and was soon providing passenger, cargo and charter service over a number of Maritime and Newfoundland/Labrador routes.

In March of 1949 a fledgeling airline, Eastern Provincial Airways, was organized and its initial services included air ambulance service, mail, ice and forest fire patrol as well as charter and irregular specific point service among the far flung communities of Newfoundland and Labrador. EPA was financed by Newfoundlanders and operated mainly within the confines of that province in the beginning, gradually expanding to operations in Greenland for the Danish Government and into the Maritimes.

During the 1950's the construction of North America's northern radar defences provided substantial involvement and revenue to many smaller airlines including Eastern Provincial Airways and Maritime Central Airways. The Pine Tree Line, Mid-Canada Line and the DEW Line were, in Eastern Canada, relatively inaccessible by conventional land transport, thus the airline became a necessity to their construction and re-supply.

These military contracts allowed the companies to grow, both in experience and equipment, toward the day when they would become one jet airline.

In September of 1963, Maritime Central Airways and Eastern Provincial Airways became Eastern Provincial Airways (1963) Limited. Both companies realized that the Eastern region of Canada needed one strong carrier and negotiations toward this result had been going on for the best part of a decade.

In 1966 Eastern Provincial Airways, under the National Air Policy, was classified as one of Canada's five regional carriers.

June of 1969 saw the first jet aircraft operating over EPA routes. The Boeing 737 proved to be an immediate success and since that time the airline has purchased an additional six of the aircraft and moved toward a standardized all-jet fleet. In 1970 the bush operation was sold to some senior EPA employees and re-named Labrador Airways Limited.

The 1970's have seen a tremendous growth in the airline's services. A computerized reservations and communications system, known as ATRAC, is now in full operation. The Handley Page Dart Heralds were sold to British Air Ferries and many of this aircraft's former routes were converted to Boeing Jet 737 service.

In 1975, EPA announced its intention to sign with de Havilland Aircraft Company an agreement to purchase three Dash-7 STOL Aircraft for delivery in 1977. It is intended that these aircraft would form part of the proposed local air network linking over twenty Atlantic Region points.

STOP PRESS

Please note the following revisions to this System Schedule:

From Gander
To Saint John, N.B.
Flight 111 operates Daily except We-Sa.

From Saint John, N.B.
To Montreal
Flight 111 operates Daily except We-Sa.

We recommend you make these changes in pen or pencil on the applicable page.

The EPA Bag Tag.

Experienced air travellers insure that all checked baggage carries an identification tag giving the passenger's name and address.

Please note that this identification is **now** mandatory for checked baggage destined for the U.S.A. and will be mandatory for **all** checked baggage as of January 1, 1976.

Free baggage identification tags are available at all EPA airport counters.

**The EPA
'Over 65'
Ticket**

If you're a senior citizen on the go, we'll reserve a seat on the EPA flight of your choice and give you a 10% discount* if you're 65 years old or over. Call EPA and ask for full information. If you're on the go, we'd like you to go with us.

*Except certain peak holiday travel periods.

EASTERN PROVINCIAL AIRWAYS
 Growing with Atlantic Canada.
Groups!

Groups of **10 or more** persons are eligible for **GROUP FARES**. You can save from 10 to 20 percent and they are available all year except during certain peak holiday travel periods. Contact EPA or your travel agent for more information on getting there as a group.

General Information Renseignements Généraux

BAGGAGE: — Up to a maximum of 44 pounds, baggage will be carried free on any full fare or half fare ticket for travel between points in Nfld and points in Labrador. For travel between all other points served by EPA the free baggage allowance will be; checked baggage: pieces — one of which the greatest length plus the greatest width plus the greatest height does not exceed 62" and one of which the same measurements do not exceed 55". Unchecked baggage: one or more small pieces the combined dimensions of which (total length plus total width plus total height) do not exceed 45". Baggage and other personal property in excess of the above will be charged for at current tariff rates, and will be carried on a "space when available" basis, unless the required space has been reserved and confirmed at time of seat reservation.

LIABILITY — The carrier's liability for loss of, damage to, or any delay in the delivery of personal property, including baggage, is limited to the amount of \$500.00 per ticket, unless excess value has been declared and the appropriate additional charge paid.

FARES — Fares and other information in this folder are subject to tariff regulations and to change without notice. Current tariffs are available on request at all ticket offices of the Company.

CHILDREN — One child under two years of age and not occupying a seat will be carried free with each adult fare. Children under two years of age for whom seats are reserved, and all children aged two years and under twelve years will be charged 66% of the full normal adult fare.

ALCOHOLIC BEVERAGES — The Company reserves the right to refuse passage to any person considered to be under the influence of liquor, and to deplane at the next available airport any passenger considered to be so affected while enroute.

RESERVATIONS — The carrier reserves the right to cancel the reservation of any passenger who fails to present himself at the airport office of the carrier; (1) 20 minutes prior to scheduled flight departure if the passenger holds a valid ticket, (2) 30 minutes prior to scheduled flight departure if not holding a valid ticket. Departures will not be delayed to accommodate late arriving passengers.

LIABILITY — EPA's liability shall not exceed the limitations specified in its tariffs.

GROUND TRANSPORTATION — Limousine services are not operated by EPA and are therefore at passenger's option.

BAGAGES — Lignes de Terre-Neuve et Labrador; chaque passager, à plein ou à demi-tarif, a droit à un maximum de 44 livres. Sur toutes les autres lignes de EPA, les franchises de bagages sont: Bagages enregistrés: deux colis dont la longueur, la largeur et la hauteur respectives n'excèdent pas au total 62 et 55 pouces; Bagages non enregistrés: un ou plusieurs petits colis dont l'ensemble des dimensions (longueur, largeur, hauteur) n'excèdent pas 45 pouces. Le tarif en vigueur sera applicable sur les bagages et objets personnels dont le poids dépasse la franchise ci-dessus mentionnée, et ils seront transportés en fonction de la place disponible, à moins que l'espace nécessaire ait été retenu et confirmé au moment de la réservation.

RESPONSABILITÉ — Le transporteur se tiendra responsable de la perte, des dommages ou du retard dans la livraison des bagages personnels pour un montant n'excédant pas \$500.00 par billet, à moins qu'il ait eu déclaration de valeur plus élevée et paiement d'une surtaxe avant l'envol.

TARIFS — Les prix et les renseignements de cet horaire sont soumis aux règlements contenus dans le "Tarif" de la compagnie que le grand public peut consulter sur demande. Prix et horaires sont modifiables sans préavis.

ENFANTS — Les enfants de moins de 2 ans dont les places sont retenues et les enfants de 2 à 12 ans voyagent à 66%. Un seul enfant de moins de 2 ans accompagné d'un adulte et n'occupant aucun siège voyage gratuitement.

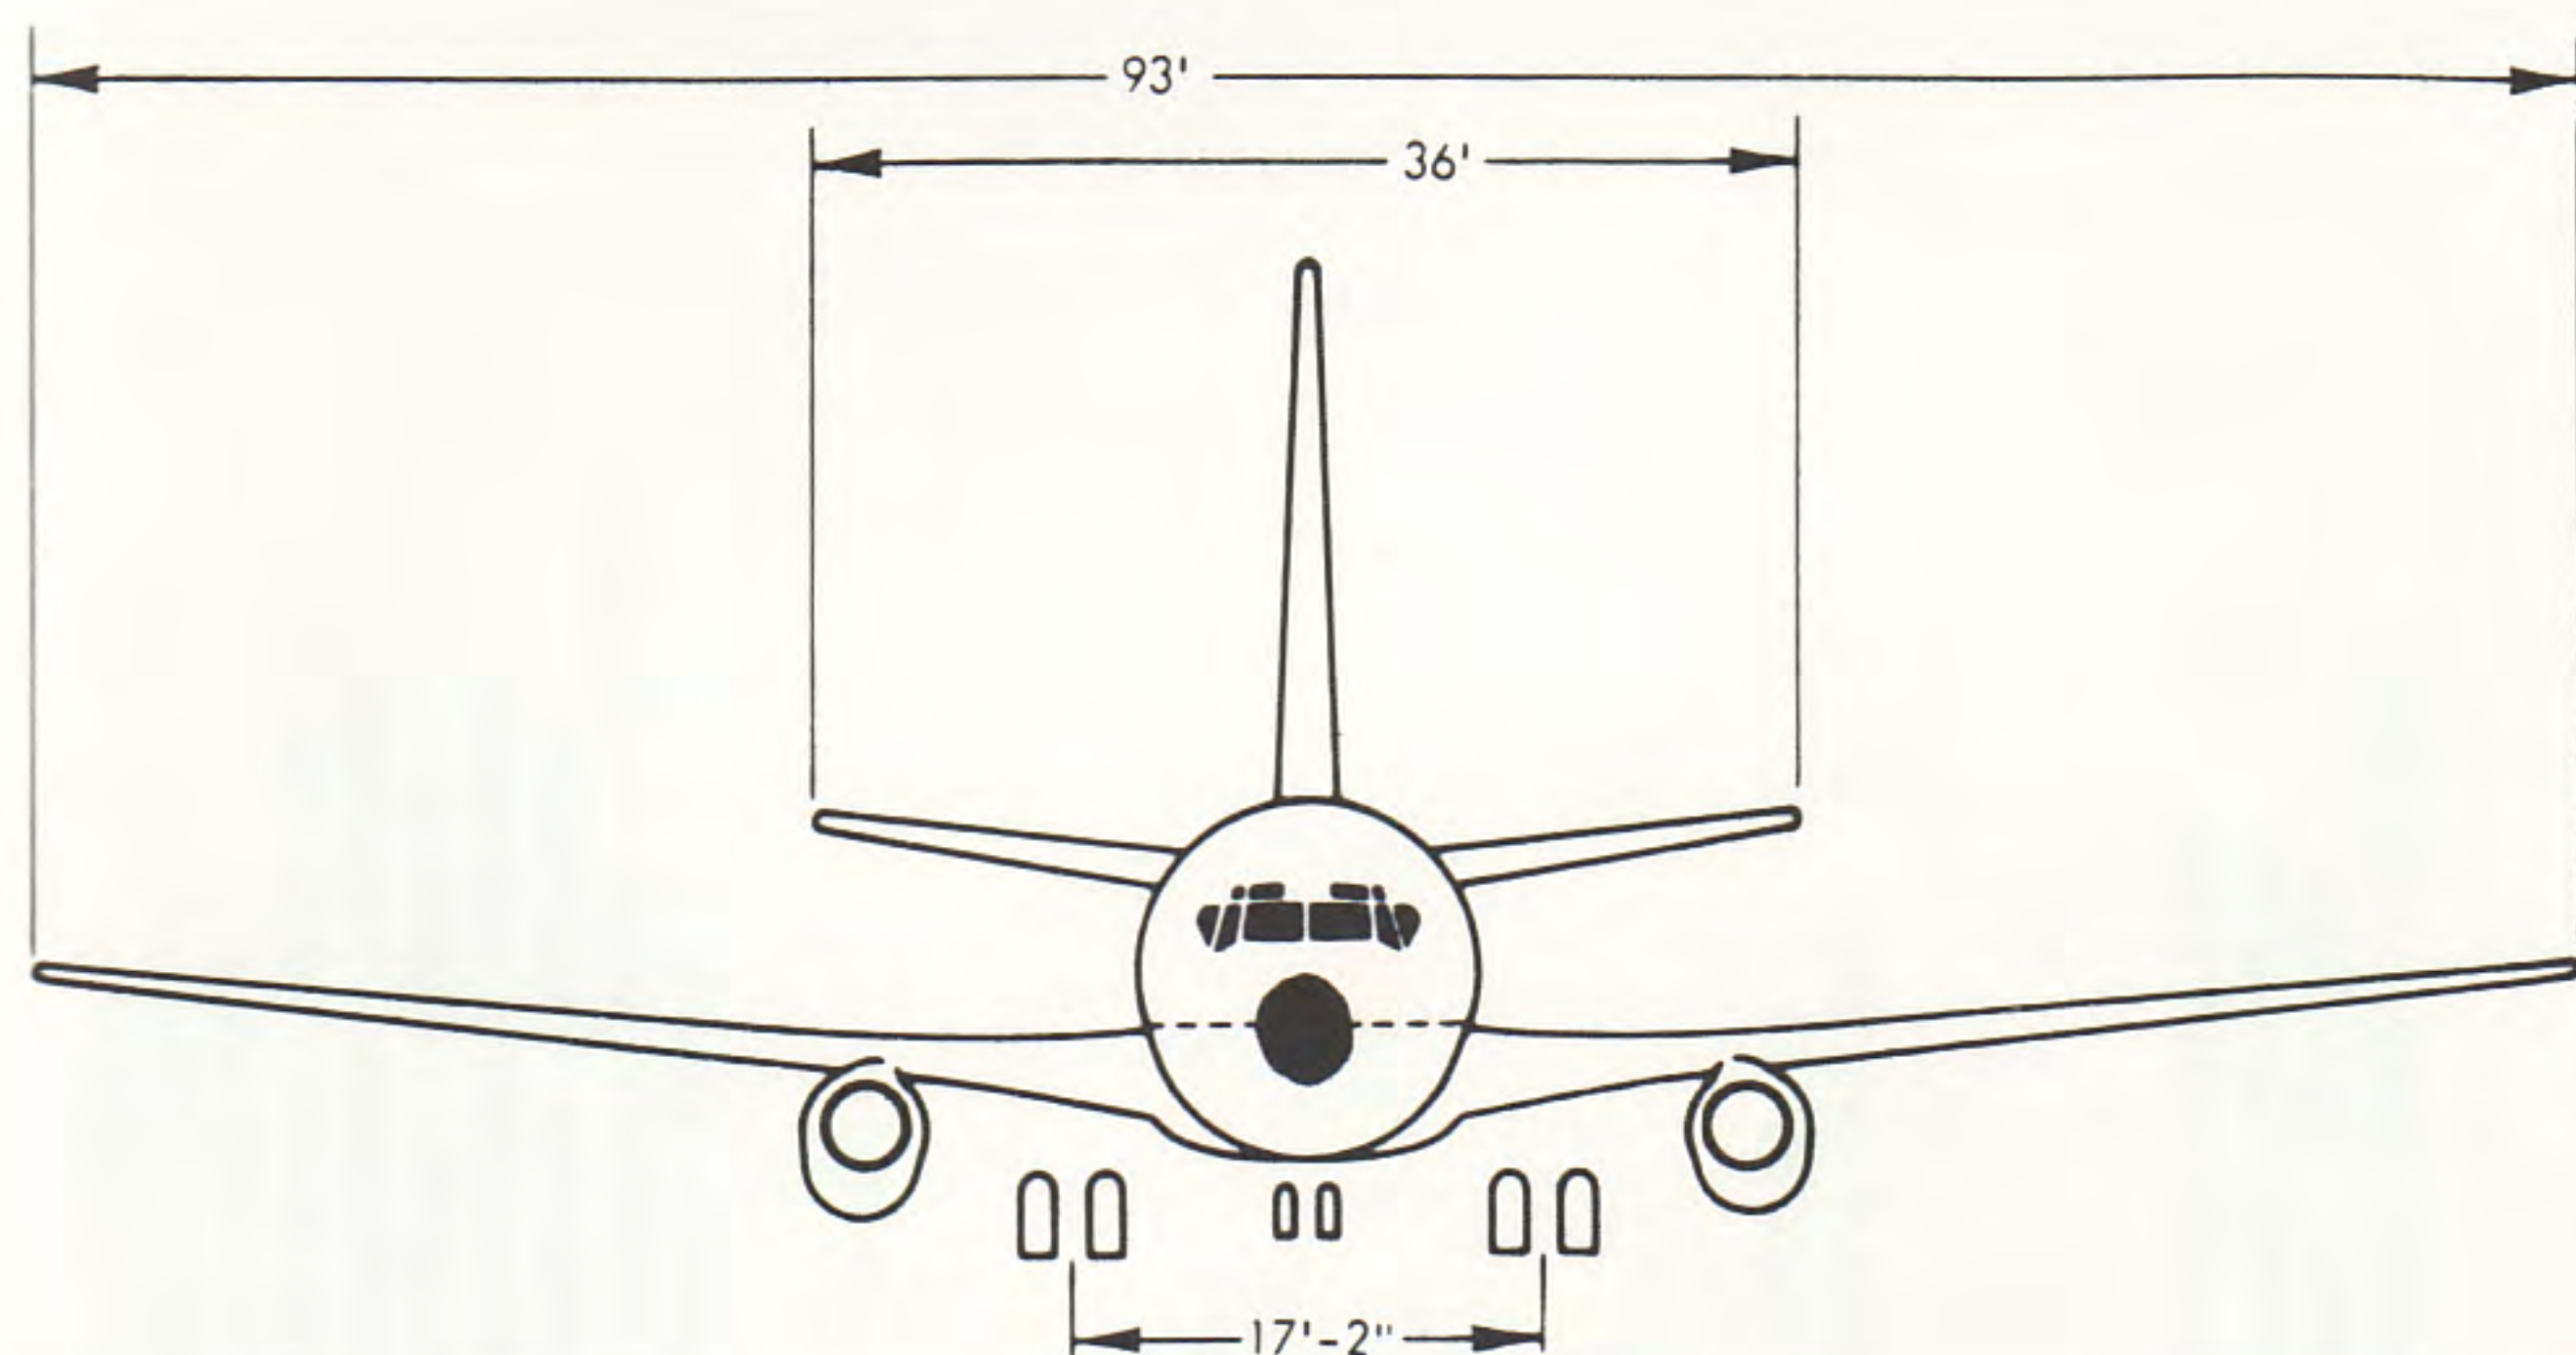

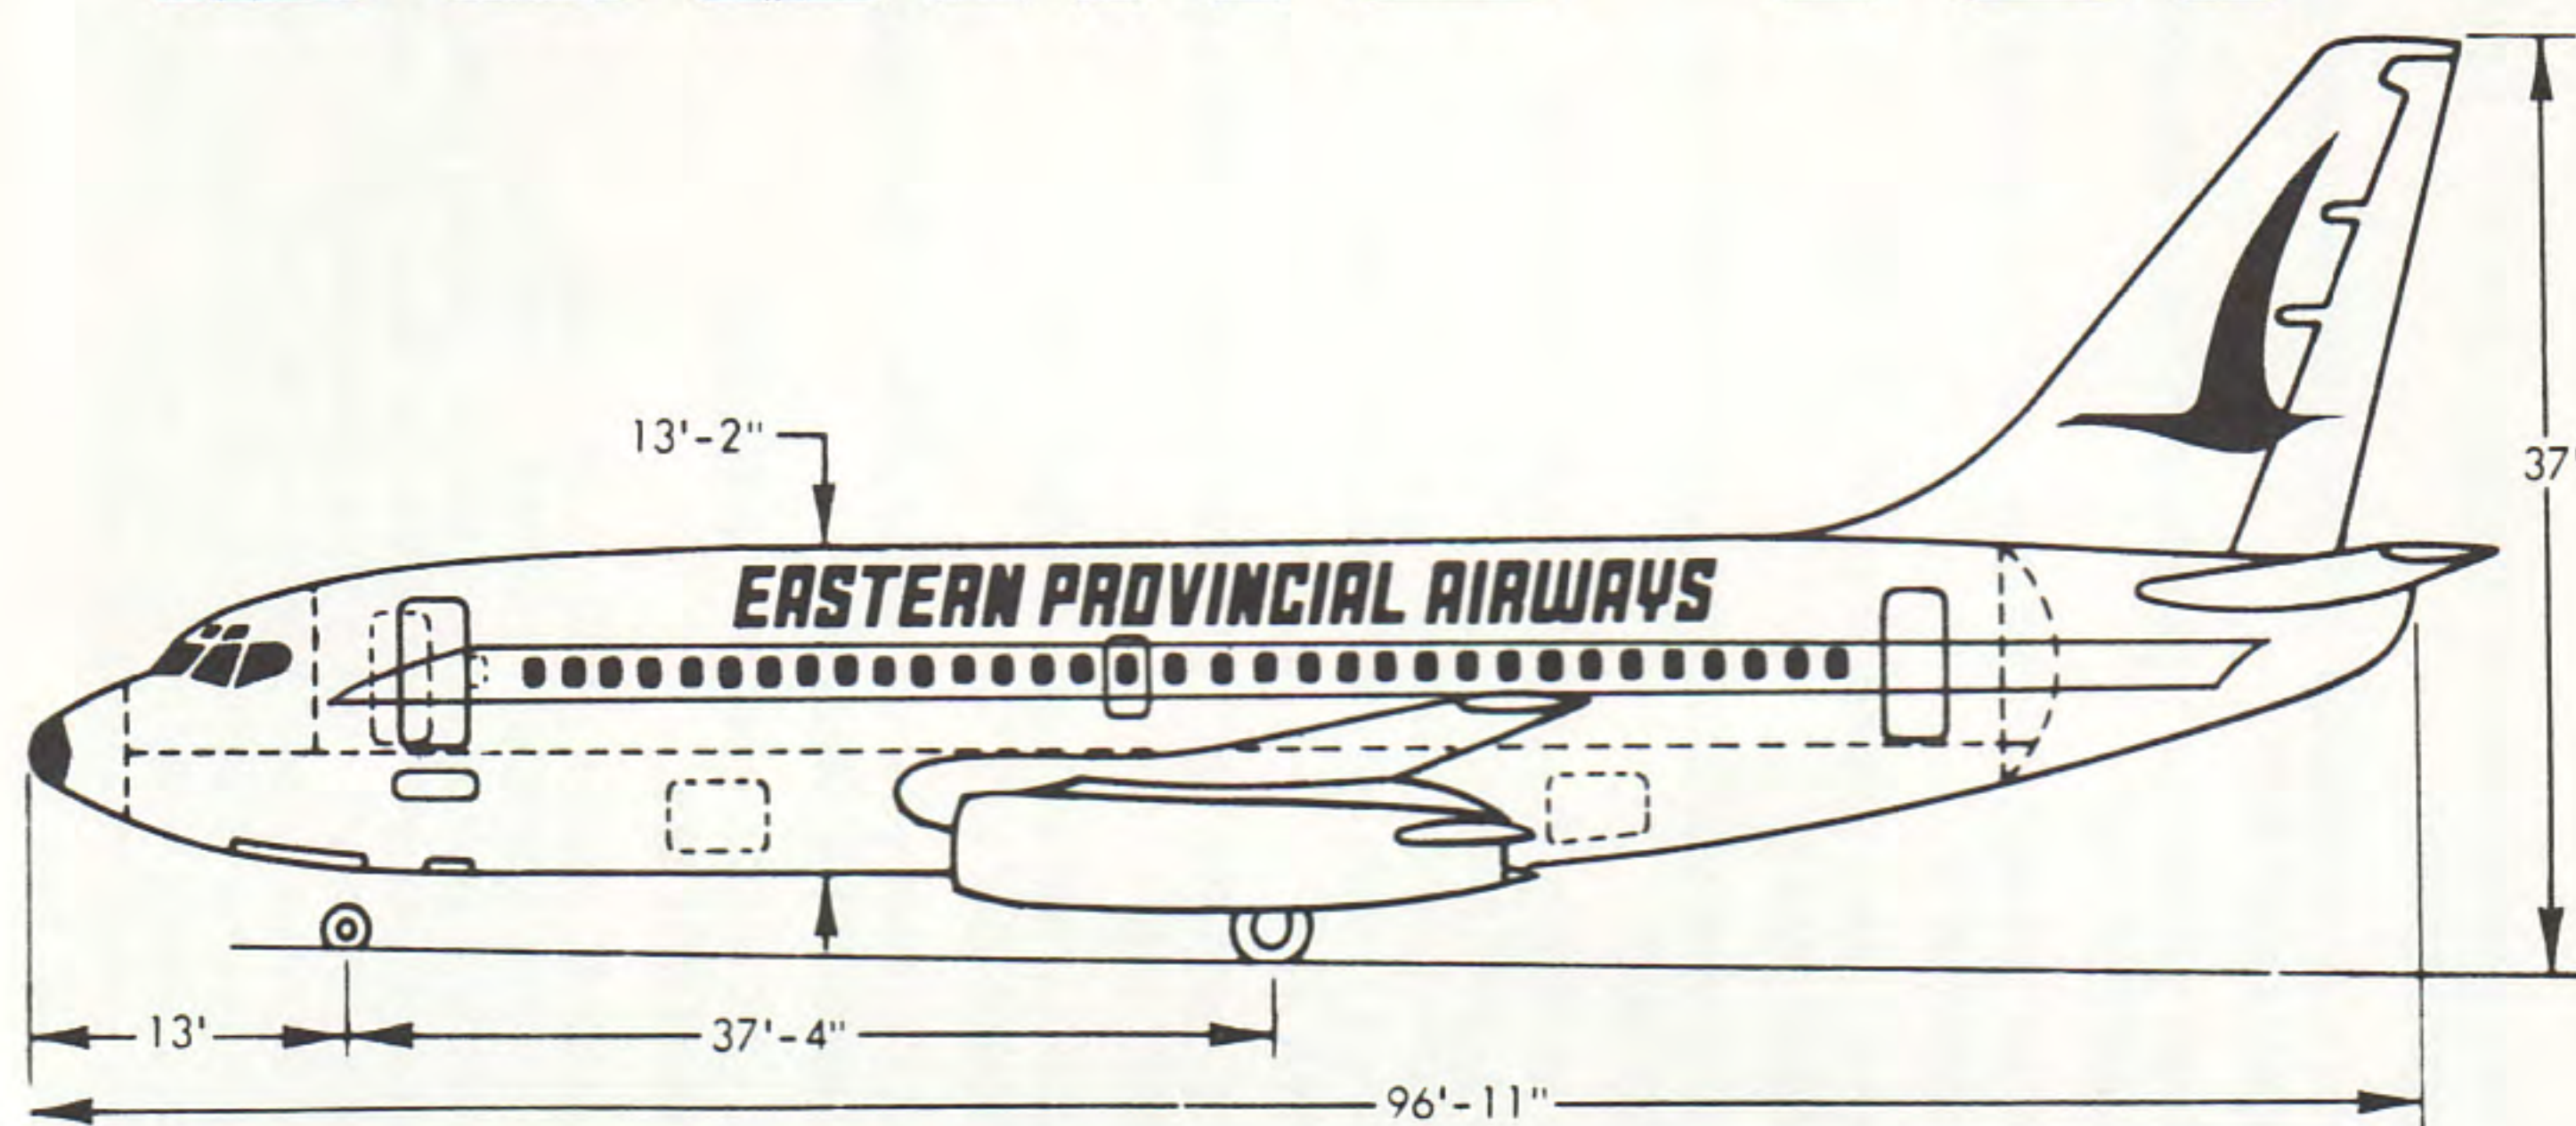

BOISSONS ALCOOLIQUES — L'accès à l'avion sera refusé à toute personne en état d'ébriété. Si cet état est constaté en cours de route, la personne se verra obligée de descendre au premier arrêt même si telle n'est pas sa destination.

RESERVATIONS — Le transporteur se réserve le droit d'annuler la réservation d'un passager qui néglige de se présenter au contrôle de l'aérogare du transporteur; (1) vingt minutes avant l'heure du départ de l'envol prévu, si le passager est teneur d'un billet valide, (2) 30 minutes avant l'heure du départ de l'envol prévu, si le passager n'est pas teneur d'un billet valide. Aucun départ ne sera différé pour accommoder les passagers en retard.

RESPONSABILITÉ GÉNÉRALE — Les responsabilités de EPA n'excèdent pas les limites définies dans ses tarifs.

TRANSPORT EN SURFACE — EPA ne donne pas ce service — les passagers doivent choisir leur transport en surface.

EASTERN PROVINCIAL AIRWAYS BOEING 737

The Boeing 737 is a "third generation jet" incorporating many of the technological and design features of its third generation contemporaries, the big long-range 707 and the medium range 727 tri-jet. The 737 completes the family as the short-haul aircraft, designed to cover the shorter routes from 100 to 1,300 miles, although the 737 has the ability to cruise 2,000 miles non-stop carrying up to 109 passengers in intercontinental-jet comfort. In addition, the 737 operates at cruise speeds up to 580 miles per hour but can still takeoff and land from short runways under 5,000 feet, allowing many smaller airports the benefits of jet service.

Two wing mounted Pratt & Whitney JT8D7 turbo fan engines each provide up to 14,000 pounds of take-off thrust and a cruise thrust of nearly 5,000 pounds each. Wing mounted engines were designed for the 737 to give greater space for passengers, as a wide-body aircraft can be faired effectively only so long as it is not hampered by aft-body-mounted engines; and wing mounted engines give the aircraft better balance. Putting the engines under the wings allows a more simplified body and tail structure, and in the case of the 737, gives a weight saving in the body-tail area of 1,500 pounds. As an extra benefit, the wing mounted engines on the 737 allow eyelevel accessibility for servicing and maintenance checks.

Another feature of the 737 which is not so obvious to the traveller is the high take-off and landing weight ratio. Most aircraft are able to carry more weight at take-off than during landing. The necessary weight loss occurs as fuel is used from the aircraft tanks. The 737 can take off and land at almost the same weight, allowing shorter trips, a high payload and retaining a large safety measure of fuel on board.
