the man from Esso ...
the refueling crew man

This familiar Joe, José or Giovanni and his fellow Esso crew men around the world are important men in the aviation industry. The quality of their services and of the products they deliver is backed by more than half a century of world leadership in the research and development of aviation petroleum products.

Esso refueling crew members are trained specialists who are proud of their jobs. They know that safe and efficient servicing means *faster* turn-around for aircraft. Operators of leading international airlines rely on Esso Marketers for uniform high quality of fuels, lubricants and *service* along the airways of the world.

SUEZ

THIS IS THE HOLY LAND ROUTE

Cairo to Suez
71 miles - 25 minutes

Leaving the fertile Nile Valley you cross desert Egypt to Suez. The Suez Canal will be on the left and the Gulf of Suez on the right.

Suez to Mt. Sinai
107 miles - 40 minutes

Look for the black bedouin tents as you fly along a famous camel caravan route. Mt. Sinai will be off the right wing-tip.

Mt. Sinai to Aqaba
25 miles - 10 minutes

Jordan, Egypt, and Saudi Arabia meet at the Gulf of Aqaba. Africa becomes Asia here. Excellent sport fishing in the Gulf.

Aqaba to Petra
71 miles - 25 minutes

This is the secret, technicolor stronghold of the ancient Nabataeans. Ask the hostess about Air Jordan's special flights to Petra.

Petra to Dead Sea
63 miles - 23 minutes

Lowest and saltiest place in all the world - 1290 feet below sea level and about 45 miles long. Have you heard about our Below-Sea-Level Flying Club?

Dead Sea to Jericho
40 miles - 15 minutes

Jericho is one of the oldest cities in the world and is the lowest, about 850 below sea level. Oranges and bananas are plentiful.

Jericho to Jerusalem
12 miles - 5 minutes

Bethlehem will be off the left wing tip. Jerusalem has an

elevation of 2500 feet. The wonders of Jerusalem are here for you to discover! Our office will be pleased to assist you. Drop in - if only to rest, or for a refreshing cup of tea or coffee.

Jerusalem to Damascus
142 miles - 60 minutes

As you fly towards Damascus, the Sea of Gallilee will be on the left and the Roman ruins of Jerash on the right. Notice the tortuous path of the River Jordan as it winds its way to the Dead Sea. The fabled Oasis of Damascus is magnificent from the air - site of St. Paul's conversion and legendary home of Abraham.

Damascus to Beirut
50 miles - 20 minutes

Rounding majestic Mt. Hermon and above the ancient region of Abilene you'll marvel at the greenness of the Bakaa Valley. Descending over Lebanon to Beirut, framed by the blue Mediterranean and red sands washed up from the mouth of the Nile, you'll appreciate this tremendous aerial view of one of the most modern cities of the Middle East.
