WELCOME TO BUSINESS AIR

Business Air currently operate an expanding network of regional routes throughout Scotland and Northern and Central England. Recently the airline launched services between London City Airport and Frankfurt. In addition to scheduled passenger services, Business Air is a major operator for Royal Mail's Skynet night network. The company also undertakes series and ad hoc charters.

Founded 6 years ago by Chairman Ian Woodley, the company has 2 key shareholders, award winning regional airline Crossair of Switzerland and Abela Holdings UK, part of the multinational catering organisation. Based in Aberdeen, the airline is equally at home in Manchester, Britain's third largest hub airport, which it serves as both a feeder and point to point carrier.

Through its recent marketing co-operation agreement with Lufthansa, Business Air is developing additional links between Scotland and Germany, as well as pioneering the London City-Frankfurt route. Business Air also acts as General Sales Agent for Air Kilroe.

Business Air operates a fleet of Saab 340 aircraft on its regional services.

A comfortable 34 seater, the aircraft is at the forefront of new technology with strong passenger appeal, high speed and excellent performance.

Over 300 aircraft are in service world-wide with

30 carriers. Equipped for CAT 2 landings, the 340 has a cruise speed of 315 mph, a useful range of 1,200 nm and an operational ceiling of 25,000 ft. On the new London City service, Business Air operate the British Aerospace 146 "Whisper Jet" in a spacious 82 seat/5 abreast configuration. With its short take off and landing capability, low noise and high speed, it is ideal for downtown city airport operations. Equipped for all weather landings, it can cruise at up to 30,000 ft at a

speed of 500 miles per hour with a range of 1500 miles.

On board all Business Air services passengers can expect friendly cabin crew, wide leather "business-class" seats, overhead lockers, high quality cuisine served on Royal Doulton china and award winning wines and beers from around the world. Swiss chocolates and hot towels complete the service which sets new trends in regional aviation.
