WELCOME TO BUSINESS AIR

Business Air currently operate an expanding network of regional routes throughout the UK with Saab 340 aircraft.

In addition the airline operates British Aerospace 146 jet services on behalf of Lufthansa. Business Air is also a major operator for Royal Mail's Skynet night network, and undertakes series and ad hoc charters with all aircraft in the fleet.

Founded 7 years ago by Chairman Ian Woodley, the Company's shareholders include award winning regional airline Crossair of Switzerland, Lufthansa German Airlines and Abela Holdings UK, part of the multinational catering organisation.

Based in Aberdeen, the airline is equally at home in

Manchester, Britain's third largest hub airport which it services as both a feeder and point to point carrier, providing good day return timings together with the ability to make onward connections to numerous domestic, European and world-wide destinations.

BUSINESS AIR

Lufthansa

Through its partnership with Lufthansa, Business Air has developed additional links between Scotland and Germany with flights from Aberdeen, Belfast, Dundee, Edinburgh and Glasgow, optimally timed to connect with Lufthansa's Manchester - Germany services. Business Air flights also connect with our other partner airlines,

Crossair to Basle and Lauda Air to Vienna. The airline also acts as General Sales Agent for Air Kilroe's Cardiff to Manchester service.

On board all Business Air services passengers can expect friendly cabin crew, wide leather 'business class' seats, overhead lockers, high quality cuisine served on Royal Doulton china with Champagne and award winning wines and beers from around the world. On most flights hot breakfasts and newspapers are provided also.

Swiss chocolates and hot towels complete the service which sets new trends in regional aviation.

Business Air participates in Lufthansa's 'Miles & More' Frequent Flyer Loyalty Bonus programme, which enables members of the scheme to accrue mileage on Business Air flights. Benefits are redeemable on Lufthansa and partners services worldwide. (See page 31 for further details).

UK Air Passenger Duty Tax

The UK Government has recently introduced an Air Passenger Duty for passengers departing UK airports. Business Air are required to ensure this duty is collected at time of sale and shown in the tax box of the ticket. Departures from UK airports are subject to charges according to destinations – generally the first point not considered a connection. Connections are determined by the time interval between arrival and departure:

- 24 hours for connection of international flights
- 6 hours for connection to domestic flights (except that when arrival is at 1700 or later a connection as valid to a domestic flight departing by 1000 the following day.

The charges to be levied are £5.00 to a point within the UK or European Union Countries plus Austria, Finland, Iceland, Norway, Sweden and Basle in Switzerland and £10.00 to any other point. The charges are exempt for departures at a connecting point when returning between the same UK airports, or when travel is on "small aircraft" fitted with less than 20 seats (e.g. Air Kilroe Jetstream 31 services). The tax applies to all adult and children's tickets, but not to infants who are exempt.

Further details are available from travel agents or Business Air Reservations.
