Transferring at Manchester

Business Air's services to Manchester are timed to offer excellent connections to Europe and the World. This timetable highlights the most advantageous links available with our marketing and interline partner airlines. We recommend that passengers wishing to find out more about international connections contact their travel agent or the international carrier direct.

For most types of trip, through fares are available which enable a single ticket to be provided for the entire journey. Such tickets ensure that just one amount of Air Passenger Duty is collected and also that baggage is through checked to the final destination.

Listed below are the principal airlines at Manchester with whom Business Air connects. Throughout the timetable "key connections" available within Manchester Airport's new Fast Transfer Pier have been highlighted. A step by step guide to transferring at Manchester is available on the opposite page.

 Partner of
Lufthansa

Business Air was founded 9 years ago by Chairman Ian Woodley. The company currently operates a network of regional routes within the UK and Europe with a modern fleet of fast efficient Saab 340 turboprop aircraft. In addition to its own passenger services, the airline is a major operator for Royal Mail and also performs services on behalf of British Midland and Lufthansa.

Based in Aberdeen, Business Air is equally at home in Manchester, Britain's third largest hub airport which it serves extensively from Scotland, providing good day return timings together with the ability to make onward connections to numerous UK, European and world-wide destinations.

Business Air is a Lufthansa Partner

Airline and codeshares with the German carrier on its domestic services from Scotland to Manchester to streamline connections onto Lufthansa's flights to Dusseldorf, Frankfurt, Hamburg and Munich. Business Air flights at Manchester also connect with fellow Lufthansa partners Lauda Air's services to Vienna and Scandinavian Airlines' to Oslo.

This summer, Business Air and its European interline partners will be delivering a significantly improved transfer process, made possible following Manchester Airport's investment in a dedicated fast transfer pier. The new facility has been designed to offer convenient and rapid transfers together with very short walking distances and reduced connecting times, full details of which are featured in this publication.

On board all Business Air services passengers can expect friendly cabin crew, wide leather 'business class' seats, overhead lockers, high quality cuisine served on Royal Doulton china with Champagne and award winning wines and beers from around the world. On morning flights hot breakfasts and newspapers are provided. Hot towels complete the service which sets new trends in regional aviation.

Business Air participates in Lufthansa's 'Miles & More' Frequent Flyer Loyalty Bonus programme, which enables members of the scheme to accrue and redeem mileage on Business Air flights. Benefits are also redeemable on Lufthansa and partners services worldwide.

Business Air is wholly owned by the Airlines of Britain Group (ABH)
