

BUSINESS AIR

Scheduled Services Timetable

Summer Edition 1

Valid 30th March 1997 - 25th October 1997

Transferring at Manchester

Business Air's services to Manchester are timed to offer excellent connections to Europe and the World. This timetable highlights the most advantageous links available with our marketing and interline partner airlines. We recommend that passengers wishing to find out more about international connections contact their travel agent or the international carrier direct.

For most types of trip, through fares are available which enable a single ticket to be provided for the entire journey. Such tickets ensure that just one amount of Air Passenger Duty is collected and also that baggage is through checked to the final destination.

Listed below are the principal airlines at Manchester with whom Business Air connects. Throughout the timetable "key connections" available within Superhub, Manchester Airport's new Fast Transfer Pier have been highlighted. A step by step guide to transferring at Manchester is available overleaf.

Founded in 1987, Business Air is a regional airline based in Aberdeen and part of the expanding British Regional Airlines (Holdings) Group. The airline operates a network of domestic services from Aberdeen, Dundee, Edinburgh and Glasgow to Manchester, plus an international route between Aberdeen and Esbjerg. Business Air is a Lufthansa Partner and codeshares with Lufthansa on domestic services from Scotland to Manchester to streamline connections onto Lufthansa's flights to Dusseldorf, Frankfurt, Hamburg and Munich. Business Air flights at Manchester also connect with services of fellow Lufthansa partners Lauda Air (to Vienna) and Scandinavian Airlines (to Oslo). Since the autumn of 1996, Business Air also codeshares with Continental Airlines, to provide a comprehensive booking, ticketing and transfer service for passengers from its Scottish points through Manchester to Newark, New York and onward throughout the USA.

SUPERHUB

Together with many of its European interline partners, Business Air offers a significantly improved transfer process through Manchester Airport's new Superhub, which has been designed to offer convenient and rapid transfers with very short walking distances and reduced connecting times.

Full details of these are featured in this publication.

On board all Business Air services, passengers can expect friendly cabin crew, wide leather "business class" seats, overhead lockers, high quality cuisine served on Royal Doulton china with Champagne and award winning wines and beers from around the world. On morning flights, hot breakfasts and complimentary newspapers are provided. Hot towels complete the service which sets new trends in regional aviation.

Business Air participates in Lufthansa's "Miles and More" and Continental Airlines' "OnePass" frequent flyer programmes, which enable scheme members to accrue and redeem mileage on Business Air flights, as well as those of Lufthansa and Continental respectively.
