STARTS ITS
20TH
CONSECUTIVE
YEAR OF
SAFETY!

Interesting Observations

For the futurist, 250,545,622 passenger miles (mileage accumulated during Colonial's unprecedented safety record now starting its 20th consecutive year) would be equivalent to one person making more than 1000 trips to the moon. (The distance to the moon is estimated by the World Almanac to be approximately 238,857 miles.)

The entire population of Bermuda could be flown from the coral isles to New York and return, about 4 times, before 250,545,622 passenger miles would be equalled.

Colonial Skycruisers, now in the 20th year of safety in operation, have consumed 12,527,280 gallons of gasoline from April 1930 through to April 19, 1949—the period free from fatality—enough gasoline to run all the private passenger cars and taxis in the city of El Paso, Texas, for one year. (Source: Standard Oil.)

It is estimated that Colonial Airlines, now in its 20th consecutive year of operation without fatality—a new world's safety record—has flown over 140,000 hours and 20,878,802 plane miles, carried over 1,000,000 passengers, and made approximately 200,000 landings and take-offs.

"SAFETY IS NO ACCIDENT"

A Statement by
SIGMUND JANAS, President,
COLONIAL AIRLINES

Colonial Airlines has just completed
**19 consecutive years of scheduled airline
service, flying approximately 250,000,000
miles without a single passenger or
crew fatality!**

This is a safety record unequalled in the annals of
commercial aviation!

We enter upon our 20th year of safety in operation
with a greater appreciation of our responsibilities
in the future . . . and pledge a continuance of the
vigilance and maintenance and performance which
have contributed so much to our achievement.

Safety First shall always remain the watchwords of
Colonial operations as we link the peoples of
Canada and the United States . . . span the Atlantic
to the magic isles of Bermuda . . . and carry mail,
freight and express.
