Information provided below is excerpted from rules applicable to transportation provided by ATA. The full text of the Contract of Carriage may be inspected at the carrier's ticket offices, or a copy may be requested free of charge by writing to ATA, Customer ServiceS Dept., P.O. Box 51609, Indianapolis, IN 46251.

Aircraft

ATA utilizes Boeing 727-200, 757-200, and Lockheed L1011 widebody aircraft. ATA Connection flights utilize British Aerospace, Jetstream 31 aircraft.

Schedules

Schedules are subject to change without notice, and times shown in ATA timetables or elsewhere are not guaranteed and form no part of the Contract of Carriage. Schedules shown are based on expected flying times. Because weather and other factors may affect operating conditions, departures and arrivals cannot be guaranteed. The carrier is not responsible or liable for failing to operate any flight according to schedule or for changing the schedule of any flight. Contact ATA for details.

Check-in Procedures

In addition to security directives issued by the FAA, ATA has enhanced its own security program. ATA will require customers who appear 18 years or older to provide a state or federal government issued ID at check-in. Due to this enhanced security program, we encourage all customers to arrive at the airport **earlier** than the standard check-in time. (Standard check-in time is at least one hour prior to scheduled departure for domestic flights and two hours prior for international flights.) All customers must be present in the boarding area at least 10 minutes prior to scheduled departure for domestic flights, and 30 minutes prior for international flights, even if they have already appeared at another location designated for customer check-in. Failure to do so may result in cancellation of a customer's reservation for all segments in his/her itinerary and make the customer ineligible for denied boarding compensation.

International Travel- An international trip may require valid travel documents such as a passport, visa, re-entry permit, health certificate, inoculation record or a ticket for the return or continuing journey. The responsibility for proper documentation rests with the individual customer. Contact ATA for details.

Seat Assignments- All seating assignments are given at time of check-in on a first-come, first-served basis.

Overbooking of Flights

In the unlikely event a flight is oversold, customers holding a confirmed ticket will not be denied a seat until volunteers have been requested. If there are not enough volunteers, the airline will deny boarding to other persons in accordance with established boarding priorities. With few exceptions, customers denied boarding involuntarily and who have complied with ATA's check-in requirements are entitled to compensation. Details are available at airport ticket counters.

Baggage

Checked baggage should be locked. Regulations require name identification on the outside. We recommend placing identification on the inside of baggage as well. Name labels are available at ATA ticket counters. Checked baggage is subject to inspection and customers may be required to present identification to claim their baggage. Do not place keys, currency, securities or other similar valuable items, business documents, jewelry, camera/electronic/video equipment, medications, prescriptions or other irreplaceable articles in checked baggage. Such items should be carried personally by the customer. Fragile or perishable items will be checked only at customer's own risk.

Free Baggage Allowance- A maximum of two pieces of checked baggage per ticketed customer. Additionally, each ticketed passenger will be allowed one carry-on bag when traveling aboard L1011 aircraft and two carry-on bags on B727 and B757 aircraft. Each piece must conform to the dimensions and weight restrictions established by ATA. Baggage will be assessed an excess fee for oversized and/or overweight pieces and for additional pieces over the free baggage allowance. Separate charges will apply to special items such as bicycles, scuba gear, surfboards, etc. and are subject to space availability.

Maximum Size and Weight Restrictions

Carry-On-Baggage- All carry-on baggage must be stowed under a passenger seat or in an overhead compartment. Items such as umbrellas, hand-bags, cameras and overcoats will not be counted toward the one piece. All carry-on baggage should have customer identification visible on the exterior (i.e., name, address, phone).

Baggage Liability-Unless excess value is declared and charges paid at the time of check-in, ATA's baggage liability for damaged or lost baggage is limited to \$1250 per ticketed customer for travel wholly between U.S. points, and \$9.07 per pound of checked baggage up to a maximum of 44 lbs (20 kilos) or 70 lbs (32 kilos), whichever is applicable for International travel. In addition, ATA is not liable for scratches, dents or other marks arising from normal baggage handling and transporting. Damaged or lost baggage must be reported to the carrier, before the customer leaves the airport.

Animals

Small domestic animals which are kept as pets may be transported on domestic flights for a fee. Assistance animals trained to aid persons with impaired vision and/or hearing may accompany the customer on domestic or international flights. Transportation of animals is subject to restrictions and space availability. Contact ATA for more information and pet fees.

Firearms

Federal regulations permit the transportation of firearms as checked baggage only. Firearms must be unloaded and in an approved case, and must be declared in writing at the time of check-in. Contact ATA for regulations regarding transportation of firearms.

Hazardous Materials

Federal regulations restrict the carriage on aircraft of items classified as hazardous materials. These materials include, but are not limited to: flammable gases, liquids and solids; non-flammable compressed gas; oxygen bottles or compressed air bottles; explosives; poisons; corrosive; oxidizing materials; radioactive substances; etiologic agents, portable compressed oxygen bottles (all types) and magnetic materials.
