## NORTHEAST NEWS

Northeast is the first airline fully equipped and with fully completed pilot training program to utilize the Instrument Landing System (I. L. S.) at Boston and New York. By using I. L. S., Northeast is authorized to operate with full Civil Aeronautics Authority approval in weather conditions which would force airlines without I. L. S. to cancel flights. The use of I. L. S. results in greater dependability and is Northeast's first step to all-weather flying.

Northeast Airlines, in co-operation with the Hertz Driv-Ur-Self Licensees, now offers the Plane-Auto Travel Plan in New England, New York City and Montreal. This plan enables Northeast passengers to rent a new automobile at their destination. Ask about this plan at the ticket counter.

Northeast is now devoting one DC-3 exclusively to air cargo. The new cargo ship will fly to any point on the Northeast system to pick up and deliver large shipments of cargo. Most service is operated at night so that shipments can be at their destination early the following morning. For further information, call any Northeast reservations office.

All planes in the Northeast fleet are equipped to carry skis and winter sports equipment in the regular baggage allotment. Our reservations department, however, asks that all passengers indicate at the time of making a reservation if winter sports equipment is to be carried. Now skiers can fly to the most popular winter sports areas in a few hours.

- 4-Engine Douglas Skymasters. All other flights operated with DC-3's.
- G Except Saturday and Sunday.
- H Except Saturday.
- † Snack service aloft after departure.
- \* Sandwich service aloft after departure.  
Coffee served all flights.  
Stewardess service all flights.
