A Four Year Record:

This month, Ozark is starting its fifth year of scheduled air line operation. During the past 48 months, Ozark has grown from an airline serving five cities in two states to a carrier serving 37 cities in eight states. The organization has grown from 40 to 375 people—from a 4 to a 13 well equipped twin engine DC-3 plane operation.

Ozark carried 1,100 passengers in its first full month of operation; in August 1954, its 48th month of operation, it carried nearly 16,000 Passengers. In four years, Ozark has flown 375,472 passengers with a perfect record of safety.

As we start our fifth year, we rededicate ourselves to the basic policies that have made our phenomenal record of growth possible—to serve the public with courteous, dependable, safe and convenient air transportation.
