ELEGANCE DEFINED

That's what McDonnell Douglas calls its wide-body DC-10s. World flies the DC-10-30, the longest-range, most advanced model made. World's planes feature comfortable, contoured seats, bright, newly designed interiors, and all the conveniences passengers have come to expect. On the DC-10, you can also enjoy nine-channel stereo and in-flight movies. Headsets are available for a \$2.50 rental charge.

AIRPORT-TO-AIRPORT PACKAGE SERVICE

World Airways also offers a small package service (up to 90 inches length + width + height) for as low as \$10 when delivered to the departing airport. Packages weighing up to 70 pounds are acceptable and will be insured for \$50 liability. They must be dropped off 1 hour prior to departure and may be picked up 1 hour after the arrival. Costs are (in either direction) \$10 between Oakland and Los Angeles, \$25 between Oakland/Los Angeles and Honolulu and Oakland/Los Angeles and Newark/Baltimore, and \$50 between Newark/Baltimore and Honolulu. See World's airport ticket agents for further information.

BAGGAGE AND PETS

You may check two pieces of baggage per person, each up to sixty-two inches (height + width + breadth) and seventy pounds in weight, and you may carry on board one piece of luggage that will fit under the seat in front of you. You may check in extra or overweight bags, sea bags, or items of sporting equipment (i.e., skis, bicycle, golf clubs) may be substituted for one of the two pieces of luggage.

Pets may be shipped as cargo, in suitable containers supplied by the passenger for a charge of \$25. Animals are accepted for shipment only if advance arrangements are made with World and cannot be considered as one of the allotted pieces of baggage. Animals must be accompanied by valid health and rabies vaccination certificates and because many areas have strict quarantine laws, it is advisable to check with local authorities before planning to transport your pet. Unaccompanied pets may be shipped at a higher rate under the same conditions as stated above.
