This guide contains an alphabetical listing of direct flights for United Airlines and United Express by AIRPORT CODE, not by city name.

Flight information includes all domestic non-stop flights, selected one- and two-stop flights, and non-stop and through flights to/from the Pacific.

When direct flights are not available a connection may be constructed by using combinations of direct flights with one of United's Hub airports: ORD, DEN, IAD, SFO or with one of the international gateway airports: LAX, SFO, SEA, JFK, HNL and NRT.

Build your connections by using the following guidelines:

- Select a direct flight from the origin airport to a Hub or gateway airport.
- Note arrival time at Hub or gateway airport and schedule your destination flight according to the required minimum connection time.
- Find the best flight time to your destination.
- Flights aren't international if they transit another U.S. point.

In order to make the most efficient connection, check other Hub or gateway airports.
